

Owl Play Tower

0.9m and 1.2m towers with balance beam, climber trail and stainless slide

Product code: TWR010 | Made in Britain | EN 1176

A long, low trail of play across two towers at 0.9m and 1.2m. Children step up the mini platform, work along the side climber trail and offset balance beam, and finish on the stainless steel slide or fireman's pole.

KEY FEATURES

- 0.9m and 1.2m towers with pitched roofs
- 1.2m stainless steel slide
- Offset inclined balance beam between towers
- 0.9–1.2m side climber trail and mini platform
- 0.9m ladder and 0.9–1.2m fireman's pole
- Laminated timber manufactured in-house by ESP

Technical Data

Specification

Item	Detail
Product code	TWR010
Overall dimensions (L × W × H)	8.36m × 3.19m × 3.32m
Minimum space required	11.4m × 6.6m
Fall height	1.2m
Platform heights	0.9m and 1.2m
Towers	2 (0.9m, 1.2m)
Roofs	2 × standard roofs
Installation	In-ground concrete foundations
Recommended surfacing	Impact-absorbing, to suit 1.2m fall height
Variants	TWR010-NO (no roofs) TWR010-SE (sensory roof & barrier)
Standard	BS EN 1176
Timber	Laminated timber, made in-house
Slide / panels	Stainless steel / HDPE
Brackets	Powder-coated structural steel

Materials & Guarantees

Built to last

Component	Material	Guarantee
Posts, decks & roofs	Laminated timber	20 years
Timber treatment	Preservative treatment	15 years
Panels	HDPE (materials & UV)	5 years
Slide	Stainless steel	Contact ESP

Guarantees cover any defect resulting from faulty design, manufacturing, workmanship or materials. They are only valid if inspections and maintenance are documented and carried out in line with ESP's Maintenance Guide and Customer Care Policy. Full details: espplay.co.uk/guarantees-and-warranties

Play Values

What children get from this product

Physical
The balance beam, side climber and ladder build strength, coordination and balance.

Cognitive
Children plan their own route between towers and judge distance, height and risk as they go.

Social
Two linked towers invite children to play together, take turns and follow each other round the circuit.

Discovery
Several ways up and down, from the ladder to the fireman's pole, encourage children to explore and try something new.

Creative
The roofed towers become castles, lookouts and dens for imaginative role play.

Inclusive
Platforms at 0.9m and 1.2m and a choice of access routes let children of different abilities and confidence join in.
