Socialising

Overview

The Caterpillar Play Tower is a bright, compact timber play tower designed to pack plenty of play value into a small footprint.
Its single-tower format makes it a practical choice for busy playgrounds where space is limited, while its bold colours and engaging design give children plenty of reasons to climb, explore and come back for more.
Available in two colour options, the Caterpillar can be tailored to suit different school, nursery and community playground settings.
A range of climbing routes lead children up to the main play deck, where they can pause, look out across the playground and choose their next challenge.
