Overview

The Rabbit Play Tower is a twin-tower climbing frame built for busy playgrounds, where children can climb, slide, scramble and race their friends from one deck to the next. Two apex-roofed towers sit at contrasting heights, linked by a raised bridge that turns a simple climb into a full circuit of play and gives children a shaded lookout at the top of each.

Install Specifications

Safety Surfacing Area:
39.7m²

Install Time (hrs):
22.3

Excavation volume:
0.63m³

Max Footing depth:
500mm

Concrete volume:
0.63m³

Total Weight:
316kg

Heaviest Part:
23kg

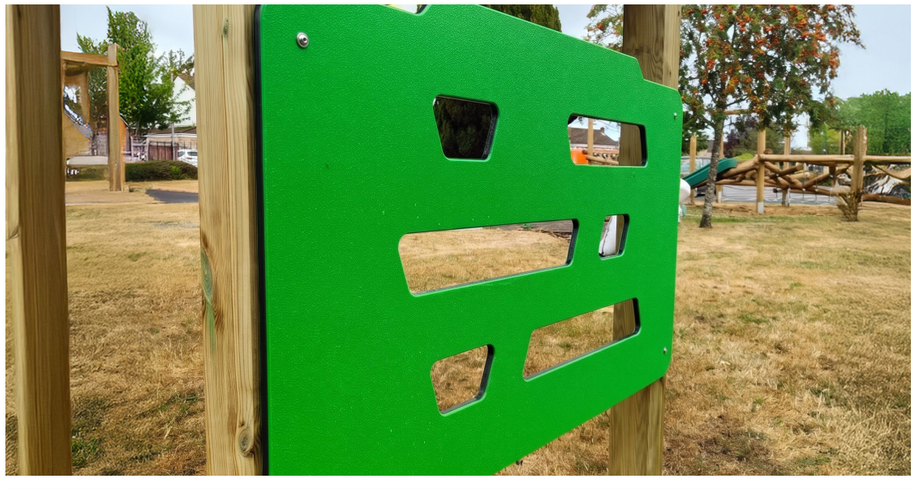

Install Options

Surface Mounting
Inground ✓
Free Standing
Available Flat Packed ✓

Materials & Warranty
