Overview

The Fox Play Tower is a dynamic, climbing-led timber structure built for children who want to test themselves. With two slides, multiple net and rope challenges and a linked deck arrangement, it delivers high-energy, repeatable play for schools, parks and public open spaces. Beyond the physical, the Fox supports imaginative play within its sheltered roofed tower, social play as children negotiate routes and take turns, and cooperative play as they encourage and coach one another through the harder climbs. Elevated decks and open sightlines give children somewhere to pause, watch and take stock an underrated part of how children actually use play equipment.

Install Specifications

Safety Surfacing Area:
59.2m²

Install Time (hrs):
35.5

Excavation volume:
0.95m³

Max Footing depth:
500mm

Concrete volume:
0.95m³

Total Weight:
429kg

Heaviest Part:
32kg

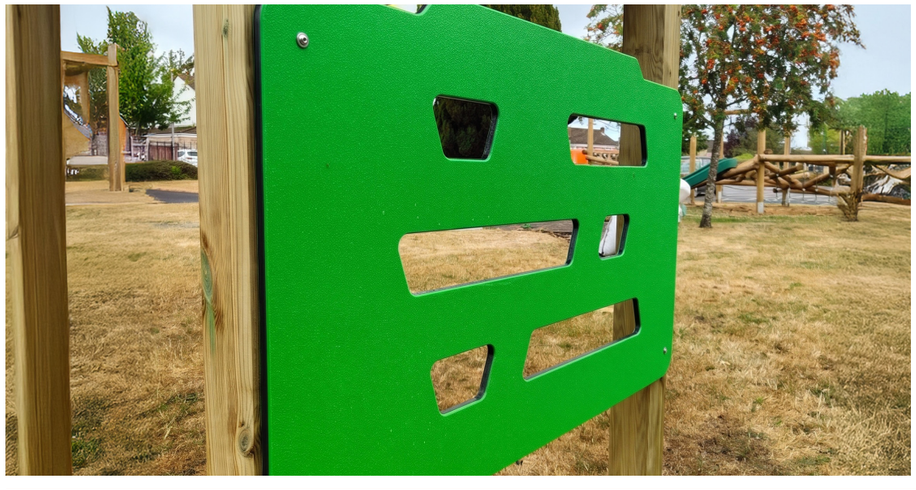

Install Options

Surface Mounting
Inground ✓
Free Standing
Available Flat Packed ✓

Materials & Warranty
