Socialising

Overview

The Moose Play Tower brings scale and ambition to outdoor play. UK designed and manufactured, this striking timber structure creates a genuine landmark within a playground, a place children gravitate towards, return to, and grow into over years of use. The Moose is designed to hold children's attention. Multiple access points offer graduated physical challenge, allowing less confident climbers to progress at their own pace while more able children seek out harder routes.

Install Specifications

Safety Surfacing Area:
47.2m²

Install Time (hrs):
28.8

Excavation volume:
0.71m³

Max Footing depth:
600mm

Concrete volume:
0.71m³

Total Weight:
536kg

Heaviest Part:
32kg

Install Options

Surface Mounting
Inground ✓
Free Standing
Available Flat Packed ✓
